

AMR Data Access Guidance

If your team's expression of interest is accepted, the Lead Applicant will be notified by the AMR Register that their data request has been approved. Your team will then be able to access the data immediately, and will have an 8-week submission period to download and work with the data, and to upload your resulting submission document.

To access the data, log into the Register and go to the 'Active' tab.

The status underneath the project name will now say 'All data Packages Provided and Available':
