Vivli-AMR Quick Start Guide for Users
Vivli Release 3.9

17 February 2026

1. Overview

Vivli is an independent, non-profit organization that has implemented an AMR (antimicrobial resistance) Surveillance Data Register for industry datasets to serve the international research community.

• Our mission is to promote, coordinate, and facilitate scientific sharing and reuse of industry surveillance data through the creation and implementation of a sustainable global data-sharing enterprise.

• The Vivli-AMR platform consists of an in-depth search engine and an independent data repository.

• Researchers may search for datasets and request data packages from the Data Contributors using the Data Request Form, download and analyze the datasets.

• Certain datasets can be requested via redirection to a partner platform.

SEARCH	REQUEST	ACCESS	UTILIZE	DISSEMINATE
Search the AMR Register for surveillance datasets	**Request** sample-level datasets or data summaries	**Download** the data or be **redirected** to a member site to obtain access	**Analyze** datasets or **utilize** data summaries	**Publish** completed research results or **share** in presentations

2. Becoming a Vivli-AMR Register User

## 2.0 Setting up a Vivli-AMR User Account

1. From a supported browser (see section 4 below for details), go to **searchamr.vivli.org** to access the platform.

2. Click on the Signup button in the upper-right hand corner
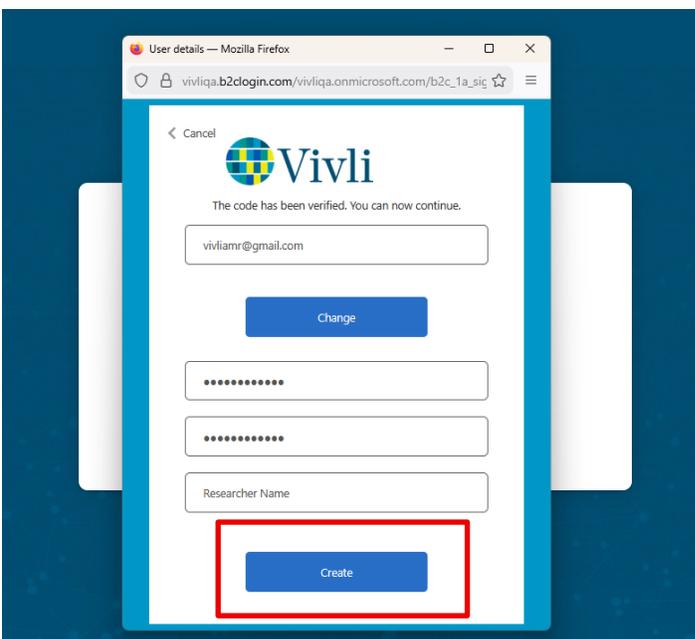

3. A new user details window opens:

4. Enter your email address and click **Send Verification Code.** A verification code is sent to the email address entered. That invite will come from 'Microsoft on behalf of Vivli Production (search.vivli.org) msonlineservicesteam@microsoftonline.com', and the subject will be "Vivli Production (search.vivli.org) account email verification code". Please copy the 6-digit verification code in the email message.

5. Enter the verification code into the appropriate field and click the **Verify Code** button. Once the code is verified, proceed to the next step. [Note: If you encounter problems with verifying the code, you have the option of requesting another code.]

6. Enter a password to be used for the new account. Passwords should be 8-16 characters and contain 3 out of 4 of the following: uppercase letters, lowercase letters, numbers, and special characters (@ # $ % ^ & * - _ + = [ ] { } | \ : ' , ? / ` ~ " ( ) ; .). Enter the same password into the second password field as a confirmation.

7. Enter a display name to be used in the AMR Register and then click the **Create** button.

8. Your account is created, and you are now logged into the AMR Register.
